
JOURNEYS WITHOUT A CROWD

More Personal Space + Our Extra Care

Committed to Your Well Being While You're With Us

- ✓ All A+R staff will maintain appropriate physical distancing at all times, so expect a warm and genuine greeting but not a handshake or a hug!
- ✓ All high-touch surfaces in our coaches and private cars - like door handles, railings, arm rests, and window controls - will be sanitized each morning and regularly throughout the day.
- ✓ Our expert guides and drivers will don face masks whenever in proximity to our guests.
- ✓ A+R staff have been trained on our *Extra Care* procedures - and how to respond to issues that may arise as you travel.
- ✓ Complimentary face masks and hand sanitizer will be available in all vehicles while touring.

More Space + Extra Care While Touring

- ✓ Larger luxury motorcoaches so each traveler will have two seats to themselves while touring.
- ✓ Private airport transfers with a spacious luxury vehicle when you come and go for every tour
- ✓ Regular and frequent sanitizing of all high-touch vehicle surfaces.
- ✓ Prearranged entry for all sightseeing minimizes standing in line with other travelers.
- ✓ *Whisper Headsets* for groups of 5 or more allow for proper physical distancing while sightseeing, except for certain nature activities in remote areas like the Amazon.

More Space + Extra Care While Dining

- ✓ Our restaurants are carefully selected to avoid crowded high-capacity venues; we emphasize fine farm-to-table dining with attentive and efficient service - and the choice to dine al fresco whenever available.
- ✓ No large-group dining; enjoy more spacious dining settings and smaller, well-spaced tables for our included meals.
- ✓ Restaurant staff will follow the guidance of local health authorities and WHO protocols which may include facial coverings.

Extra Care at Our Luxury Hotels

- ✓ A+R's hotels are always selected for their outstanding locations, evocative ambiance, impeccable service - *and cleanliness*.
- ✓ Our partners include the most respected luxury brands - like *Belmond, Four Seasons, Park Hyatt, Kempinski* and *JW Marriott*; they are now leading the industry with their sophisticated hygiene standards and protocols to ensure the well being of all their guests.
- ✓ Hotels will be continuously and rigorously vetted to ensure that they are following established WHO guidelines including social distancing and sanitizing procedures of guestrooms and public spaces.
- ✓ Hotel breakfasts will usually feature à la carte service and group seating will be replaced by smaller, appropriately distanced tables.

Stay Current in a Changing World - with our Living Document

- ✓ This is a living document and we will continue to update these *Extra Care* protocols to follow the guidelines of the U.S. Center for Disease Control, World Health Organization, United States Tour Operators Association, World Travel & Tourism Council and local health authorities in our global destinations.
- ✓ Access current country-specific information for any special entry requirements throughout our 85 worldwide destinations - at www.AlexanderRoberts.com! **Click Here >>**

And Always... Our Distinctive A+R Style

In a Small Group of Never More than 16 Guests or on a Privately Guided Tour for just your traveling party, our experienced guides have the flexibility to adjust your sightseeing based upon local conditions - to avoid times of heaviest traffic and crowding, for example. We can dine in smaller authentic restaurants, minimize the time waiting in lines, and leave a lighter footprint. You'll learn the history and stories behind the world's most iconic landmarks, immerse more deeply in the wonders of the natural world, and delight in genuine cultural engagement not possible in a larger group. It's travel without a crowd.
