

## Enhance Your Stay in Santorini with Additional Privately Guided Sightseeing

**Private Full-Day Tour - Highlights of Santorini with Lunch:** Your chauffeured vehicle and guide will be ready this morning to take you on a fascinating journey into Santorini's ancient past at the archaeological site at Akrotiri. Dating back to the Bronze Age, this was one of the most important trading centers of the ancient Minoan civilization—with connections to mainland Greece and as far afield as Egypt and Syria. Among its many notable features are a surprisingly sophisticated drainage system, multi-story buildings and beautiful wall paintings. After your tour, refresh with some Greek coffee and a pastry, and then spend some time exploring the charming village of Pyrgos. Situated at the foot of Mt. Profitis Ilias, it offers panoramic views of the surrounding countryside and the chance to experience a more timeless and authentic side of life on a Greek island. Before returning to your hotel, we'll take you to lunch in the picturesque fishing port of Ammoudi. *This 6-hour privately guided excursion includes chauffeured transportation, entry fee at Akrotiri, coffee break, and lunch.*

**Private Sailing Excursion:** Delight in the blue waters of the Aegean Sea and Santorini's magnificent seascapes on this private sailing adventure. Departing from the south side of the island, your cruise will take you along some of Santorini's most picturesque beaches and past Indian Head Mountain and the Old Venetian Lighthouse. You'll even venture into the now flooded caldera to get closer to the volcanic islands that you can see from Santorini. Along the way, your captain will recommend a few stops where you can swim and snorkel. A barbecue lunch (or dinner) with steak and seafood highlight this unforgettable excursion. *You can choose a 10:00 am morning excursion or a 3:00 pm sunset cruise. Both options last 4.5 to 5 hours and include privately chartered sailboat with captain; snorkeling equipment; lunch or dinner with soft drinks, mineral water, beer, and wine; and roundtrip transfers between your hotel and the marina.*

**Kayaking Adventure Along the South Coast:** With your expert, in-the-know guide leading the way, this fun and exciting excursion is a wonderful way to experience Santorini's legendary beauty. Focusing on the scenic southern coast, your kayaking adventure will take you past famous sites including Red Beach and Black Mountain where you'll have the chance to explore some sea caves! You'll even stop at one of the island's most beautiful beaches for a picnic and a bit of swimming and snorkeling. *Available from May 1 to October 31, this 5-hour excursion is a shared activity with a small group of other guests. No prior kayaking experience is needed. It is available as a morning excursion or a sunset activity. All equipment is included.*
