Healthy Samui Coco Life Full Day (Private)

From cycling through lush countryside and along secluded beaches to enjoying a coconut-centric lunch, today will be a healthy and tasty journey through the unseen side of Koh Samui. In the morning, the driver will collect us from the hotel and take us to Ban Bangkao Sala Talay to collect the bicycles. You will then use eco-friendly pedal-power to explore tranquil coconut farms and beautiful coastline in the south of the island. Cycling through rural areas gives us an insight into the local way of life. After all the cycling, you will have built up a thirst so a stop for a refreshing drink of fresh coconut at a beach bar is needed. This is followed by lunch in a local restaurant in which coconut plays the starring role. The journey continues by van to the next destination where we spend the afternoon observing craftsmen transform the humble coconut into everyday objects and utensils. You even get the chance to participate in these activities and learn how to make a Thai herbal compress (luk prakob). At the end of the tour, the driver will take you back to the hotel.
