## DAY 3 | Gorillas in the wild

Early this morning, we take you to Volcanoes National Park headquarters for an important briefing on the day's unforgettable adventure! There are about ten gorilla families habituated to human contact and their movements will determine the duration of today's trek. Starting at an altitude of 6,500 feet, you'll trek with the aid of a porter along densely forested slopes to catch up with your assigned gorilla family. After locating them, you'll have an amazing opportunity to spend about one hour watching quietly as the gorillas go about their daily routine. Retrace your steps down the volcano and return to your lodge.
